

# Linas Jesaias

DESIGN ENGINEER / PRODUCT DEVELOPER

Product-focused developer and designer combining visual craft, interaction design and hands-on product building. I turn early ideas into working products across web, desktop software and mobile, using AI-assisted development workflows to prototype, test and iterate quickly.

## SELECTED PRODUCT WORK

### ORVO

CREATIVE DESKTOP SOFTWARE

Concept, interface and iterative development of a JUCE/C++ audio product for stretching and reshaping sound, with custom controls, waveform UI and real-time audio workflows.

[JUCE](#) / [C++](#) / [VST3](#) / [UI/UX](#) / [audio workflows](#)

### KVIZY

LIVE WEB PRODUCT / PWA

Built and iterated a Danish pass-the-device quiz product with offline-first play, multiple game modes, adaptive difficulty and a mobile-focused interface.

[Next.js](#) / [TypeScript](#) / [PWA](#) / [offline-first](#) / [product UX](#)

### Ryder's Road

MOBILE INTERACTIVE PRODUCT

Built and iterated a first-person mobile parkour game from prototype to Android test builds, including touch controls, movement and physics, progression, timing systems and modular levels.

[Unity](#) / [C#](#) / [Android](#) / [interaction design](#) / [game systems](#)

### Ordbomben

REAL-TIME WEB PRODUCT

Designed and built multiplayer game flow, responsive UI, score logic and real-time state for a social word game.

[TypeScript](#) / [WebSocket](#) / [real-time UX](#) / [frontend](#)

## EXPERIENCE

### Freelance Creative Developer & Designer

2016 - present

Client websites, digital concepts and visual direction from early idea through design, frontend build and delivery. Selected work includes Warren Lotas, TaoJess, XYUZ, Idle Clothing, StealsDK and Psykolog Astrid.

### Personal Assistant / Disability Support Worker

2015 - 2017 / 2019 - Dec 2025

Long-term role requiring stability, responsibility, discretion and calm communication.

### Graphic Designer / Clothing Designer - XYUZ Clothing

2012 - 2014

Graphics, apparel and early brand-identity work for an independent clothing label.

## DESIGN ENGINEERING

- Product-minded. Turns loose ideas into testable, working products.
- Visual + interaction craft. Interfaces, motion and product behaviour developed together.
- AI-assisted workflow. Modern tools used for faster prototyping, debugging and iteration.

## TOOLS & TECHNOLOGIES

### PRIMARY / WORKING WITH

[React](#) / [Next.js](#) / [TypeScript](#)  
[Tailwind CSS](#) / [Framer Motion](#)  
[UI/UX](#) / [interaction design](#)

### PROJECT EXPERIENCE

[Unity](#) / [C#](#) / [JUCE](#) / [C++](#)  
[WebSockets](#) / [Prisma](#) / [Three.js](#)  
[PWA](#) / [offline-first](#)

### WORKFLOW

[Git](#) / [npm](#) / [deployment](#)  
[Codex](#) / [AI-assisted development](#)

## PRODUCT FOCUS

[rapid prototyping](#) [mobile UX](#)  
[real-time UI](#) [visual systems](#)  
[early-stage ownership](#) [fast iteration](#)

## EDUCATION

### Det Fri Gymnasium - HF

2014 - 2016

### AFUK Produktionsskole

2014 / Visual line

### Roskilde Tekniske Skole

2013 - 2014 / Sign technician foundation

## ADDITIONAL CREATIVE WORK

Video work for Copenhagen Fashion Week, J. Pilgrim and Rust, plus service and event experience in fast-paced environments.
